

Control Insects on Your Crops with Pyronyl™ Crop Spray

Pyronyl™ Crop Spray is approved for use on many vegetables, herbs, bearing fruit and nut trees, flowers and foliage plants. It has a high concentration of pyrethrins and is synergized with PBO to give it quick knockdown and broad-spectrum control of damaging insects and mites. Pyronyl™ Crop Spray can be applied on fruits, vegetables, hemp and herbs with no pre-harvest interval restrictions. Use it alone or in combination with other insecticides such as Mavrik Aquaflow® and insect growth regulators such as Enstar® AQ.

Pyronyl™
Crop Spray

Protect Your Crops WITH Pyronyl™ Crop Spray

Key Features and Benefits

- Labeled for vegetables, herbs, hemp, flowers, fruit and nut bearing trees and shrubs, foliage plants and turf
- Broad-spectrum insect and mite control
- High concentration of pyrethrins
